

# The best way to take your business up into the cloud

CloudingNow is a customer-centered cloud services integrator, managing cloud production infrastructure & SaaS. CloudingNow delivers a full range of cloud infrastructure services, and partners with all leading cloud vendors, including Amazon, Microsoft and Google.

At CloudingNow, we're passionate about providing the optimum cloud solution for you, perfectly tailored to your growing business.

# Full cloud infrastructure services tailored to your business

- CloudingNow brings the right clouding solution for you, customized to your business requirements
- We identify the optimal technical set-up and licensing arrangements, maximizing ROI on your IT investment
- Our end-to-end cloud solutions ensure seamless content migration from 'on premise' to the cloud, with no downtime!
- 24/7 SLA: We offer around the clock service and support including management of updates, server management, backups and upgrades of cloud software

## Benefits to your business

- **Transparency:** You only pay for what you need and use
- **Access:** Access your content anytime, anywhere and via any device
- **Flexibility & Scalability:** Our cloud based services adapt to provide the most suitable technological solution to meet your evolving technology business needs. Relevant additional features and services can be easily added when necessary
- **Familiarity:** No need to educate yourself about train or learn new software components
- **Monitoring & Back-up:** Monitored performance and backup options available

cloudingnow

We do cloud production!
